BRITTANY MURPHY

May 2002

April 2005

▶ IT LOOKS LIKE BRITTANY MURPHY'S CAREER ISN'T THE ONLY THING THAT'S GROWN IN LEAPS AND BOUNDS SINCE SHE PLAYED AN UGLY DUCKLING IN 1995 MOVIE *CLUELESS*.

THE 27-YEAR-OLD STAR SEEMS TO BE BUSTIER THAN EVER IN THE CHEST DEPARTMENT. HOW COME?

WELL, DR MERVYN CASS - MEDICAL DIRECTOR AT BREASTSURGERYCENTRE.COM.AU - SAYS BRITTANY HAS HAD BREAST IMPLANTS.

"THEY'RE VERY HIGH IN THEIR PLACEMENT AND LOOK SOMEWHAT ASYMMETRICAL," HE SAYS.

"THE IMPLANTS MAY HAVE BEEN PLACED UNDERNEATH THE MUSCLES OF THE CHEST WALL, GIVING THEM THIS DISTORTED LOOK."

SYDNEY PLASTIC SURGEON DR MARK KOHOUT AGREES BUT ADDS, "SHE IS LOOKING FANTASTIC WITH HER NEW FULLER LOOK."
