

Melissa Elliott, from Bathurst Permanent Makeup Clinic, Dr Mark Kohout, Michelle Whaling and Del Robinson at the makeup clinic's cocktail party on Wednesday night.

Hair today ... all new removal system launched

LASERSMOOTH hair removal is now available at Bathurst Permanent Makeup Clinic.

The clinic hosted a cocktail party on Wednesday night to launch the state-of-the-art hair removal system.

One of Sydney's leading plastic surgeons, Dr Mark Kohout, who owns LaserSmooth was special guest at the cocktail party.

LaserSmooth offers superior IPL treatments for permanent hair reduction, pigmentation, capillaries and skin rejuvenation.

Using LaserSmooth's latest IPL technology, Dr Kohout said you will receive the safest and most effective treatment for unwanted hair and skin imperfections, with little or no downtime.

LaserSmooth also offers specialised treatments by Dr Mark Kohout for frown lines, wrinkles and crows feet, plus dermal filler for those sexy fuller lips.

LaserSmooth can treat hair in a wide range of skin types while extracting heat from the skin for additional protection.

Call Bathurst Permanent Makeup Clinic for more information and for all your permanent hair removal needs.
